The **UbiDuo** is a communication device that enables people who are deaf/hard of hearing to communicate instantly with anyone, face-to-face, without a third party. Up to four people can participate in a conversation at one time. "Type-to-text" displays simultaneously on each split-screen in 'real time'. The **UbiDuo** has a wireless range of 500 feet, 6 pounds of portability, and is effortless to use, making it the perfect solution for anyone with communication barriers.

Up to 8 hours of rechargeable battery

MAIN SCREEN

Within three seconds of start up, begin a SPLIT screen 'chat', make a TTY CALL, adjust screen SETTINGS for easier viewing or SAVE a conversation to print later. Ease of use is the hallmark of the UbiDuo.

INSTANT FACE-TO-FACE COMMUNICATION!

SPLIT SCREEN

Hi! I'm great. How do you like your UbiDuo?
hello how are you?
I love it because I can use it anywhere at anytime!

With the touch of a button, open up a split screen 'chat' for dynamic conversations. Use Emoticons, BOLD text and adjustable font to personalize your conversation.

Ubi4Tel FEATURE

TTY Function. Plug one UbiDuo into a land line; the 2nd can be used as a "cordless" TTY within 500 feet of the base unit. A 2nd person can participate by typing from the base unit. (Compatible with other UbiDuos, Relay services & ASCII II devices).

SAVED CONVERSATIONS

The UbiDuo can hold up to 61 log files containing 20KB each, with 1.22 MB of storage space. Via the USB port, conversations can then be downloaded to a computer for printing purposes.
